Review and Refactor existing Wiki to be more User profile driven

Mentor: Cynthia Antwi

Technical Writer: Muhammad Arslan

Information Architecture

- Information architecture (IA) is a science of organizing and structuring content of the websites and/or mobile application

- Information architecture aims at organizing content so that users would easily adjust to the functionality of the product and could find everything they need without big effort

- IA is a blueprint of the design structure which can be generated into wireframes and sitemaps of the project. UX designers use them as the basic materials so that they could plan navigation system.

Persona Development

A user **persona** is a fictional representation of your ideal customer

Bio

Lives in a rented apartment, 2.5 rooms, with his student girlfriend, works in a high-tech job. Likes hosting people. After a long day at work, he likes to throw on the couch with his girlfriend in front of the TV.

Favorite Brands

Wants & Needs

- Create a cozy atmosphere at home with innovative design.

- Design the house at low investment and without much effort.

Frustrations
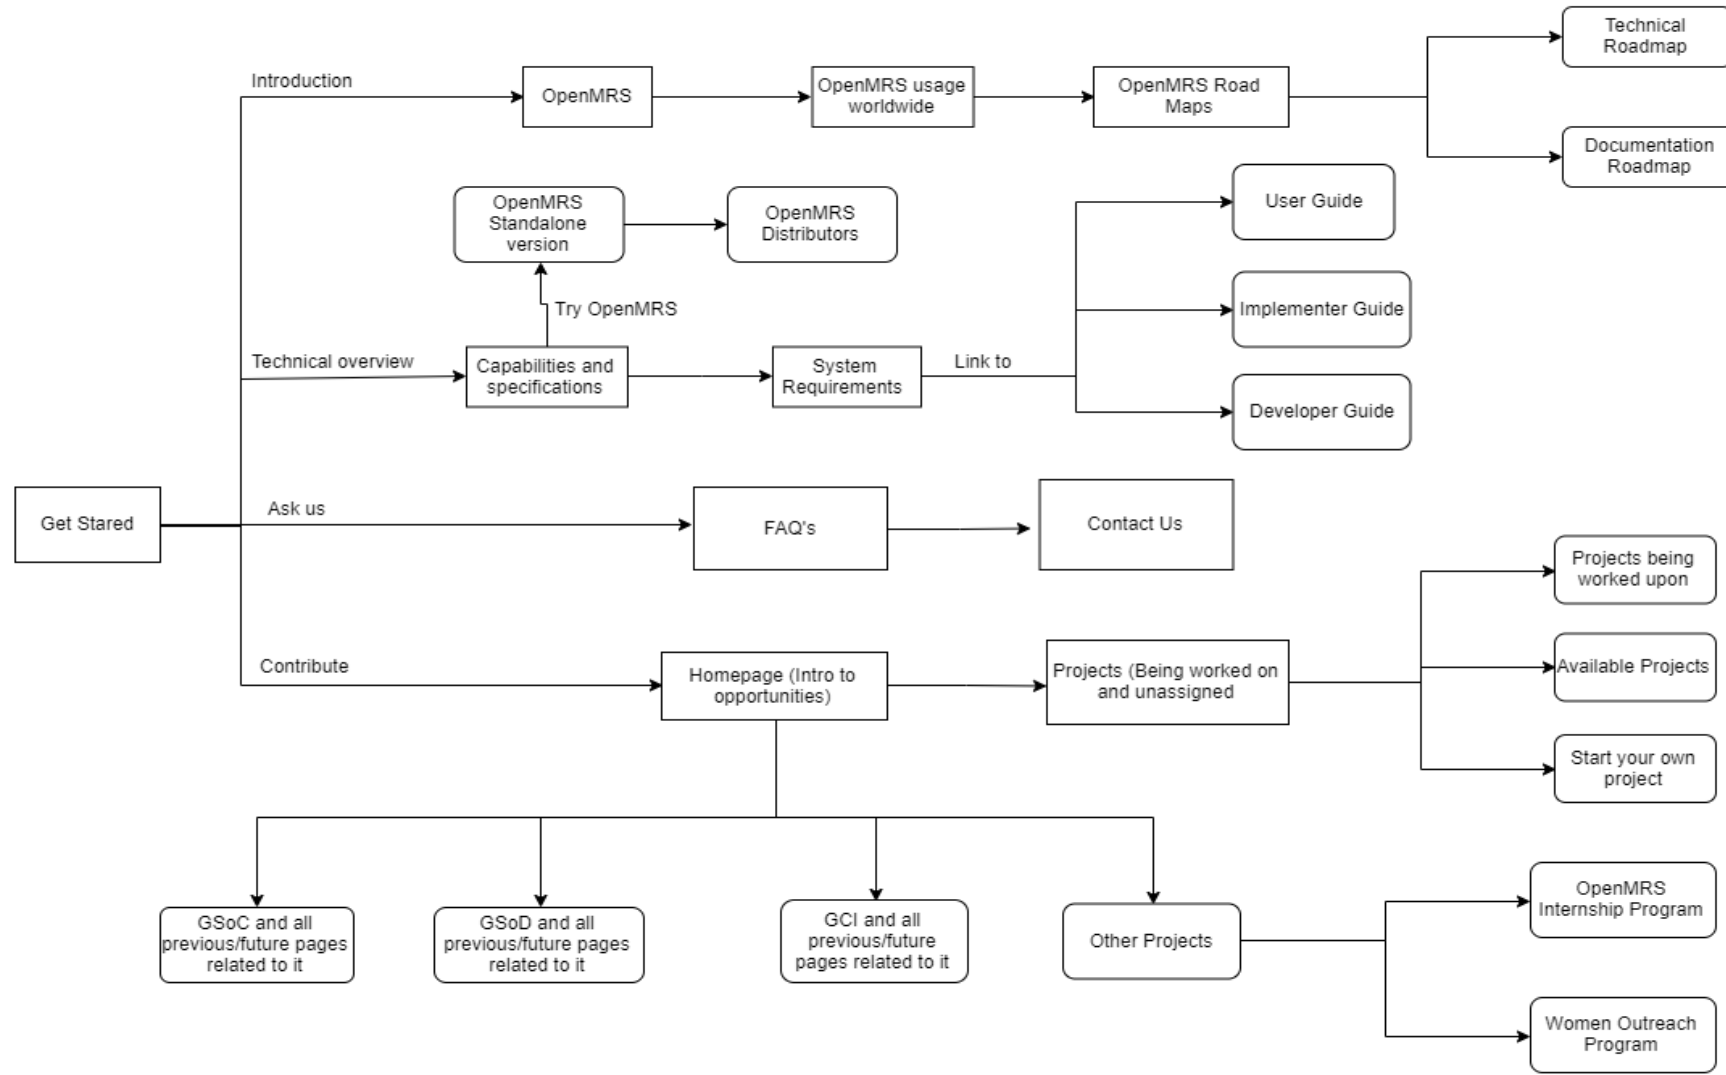

- Don't want to spend money on interior designer and he doesn't have much time to deal with the design planning.

- He designs his apartment, but he thinks that she can look much better.

Some of bad stuff

We have a passionate community full of enthusiastic developers, managers and all other type of

contributors but Wiki has not been getting a lot of attention. Some problems that I found are

listed here.

- Organization of Pages

- Too many similar Pages

- Technical stuff with no prior explanation.
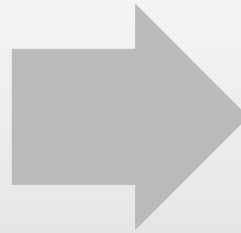

- Empty child pages

- Outdated pages

Some Achievable Pages

- Mailing Lists

- IU Bug Hunt 1.6.0

- W Code Jam 2011

- Boston Meeting September 2007

- Developers Forum

- Implementers Forum

- OpenMRS Social Hour

- Transcript of 27 07 2007 IRC demo

- Meeting notes

- OpenMRS Developer Training Week 8-12 February-

  2010

- Mini OpenMRS Workshop Nov15th 2007

- Mailing Lists (Legacy)

- Fundraising (With all Child Pages.)

- Backlog

- Kanban

- Spikes

Some Pages that need to be moved

INFORMATION ARCHITECTURE

Link will be posted before tomorrow's documentation meeting.

- IA for Resources Space with recommendations and other details for documentation team.

- IA for Project Space with Homepage, recommendations and other details for documentation team.

- Homepage for curious person. (This tab needs some discussion)

- IA for Implementer with recommendations and other details for documentation team

- IA for Technical Writer/Subject matter expert with recommendations and other details for documentation team.

- IA for OpenMRS User with recommendations and other details for documentation team

- IA for developer and tester has a lot of technical data that I know nothing about but I'm taking baby steps. That will be posted before 22nd November.

All of you are encouraged to see, comment and recommend anything that you feel is mis-placed. All documents will be available on this link.

Concluding Remarks

Special thank you to all supporting community members for their comments, suggestions and

support during the project. I would not be able to make it without your help

Especially

- **Jennifer Antilla**

- **Tendo kiiza Martyn**

- **CLIFF GITA**

- **Juliet Wamalwa**

I would love to work as a member of documentation team in implementing new information architecture and suggestions and also to be an active part of documentation related discussions.
